DARMSTADT

Summer Term 2022

We were not able to get our model to train and can therefore not report any results here (see first notebook cell for details). However, we tried to write the necessary training and evaluation code for tasks 1.4 and 1.5 and would be very happy to receive partial points for these. Uploading the model to the Huggingface Hub and to UKP-SQuARE was therefore also not possible.

1.4 Model Training

1.5 Model Evaluation

1.6 Sharing your Model

1.7 Deploying your Model on UKP-SQuARE
